

## Technique

Volume:	360 L
Light:	T5 8 x 28W
Gravel:	Gravel 0.8-1.2 mm
Filter:	Eheim Professionel II
CO2:	25 mg/L
Fertiliser (weekly):	60 ml Premium Fertiliser + 120 ml Specialised
Maintenance (hours per week):	½-1

by Tropica

Rich tropical pond with great water depth. We see a colour play in the selection of plants and the theme is a place of calmness, darkness and some mystique. Because of the great water depth very little light reaches the bottom. Vesuvius is set up in a quiet background so that its characteristic growth does itself justice. The background falls from left to right in a mixture of colours and leaf shapes. Fresh green plants decorate the middle and the foreground and create a nice contrast to the dark roots. A mixture of the dark "Spiky" moss and Utricularia. The aquarium is intended for neon fish and other shining shoal fish.

**Tips!** Wood roots release acids into the water that colour it yellow. This can be avoided by keeping the roots under water before using them in the aquascape- and afterwards, by frequent water changes.

**Note:** Plant A on the drawing is Echinodorus uruguayensis which is no longer produced by Tropica. Can be replaced by Echinodorus bleheri.

## Plants used in this layout

B)	Hygrophila polysperma 'Rosanervig'	(050B)	5 pcs.
C)	Heteranthera zosterifolia	(096 TC)	5 pcs.
D)	Nymphoides hydrophylla 'Taiwan'	(041B)	3 pcs.
E)	Hygrophila lancea 'Araguaia'	(051B TC)	5 pcs.
F)		( )	3 pcs.
F)		( )	3 pcs.
G)	Echinodorus 'Reni'	(072D)	3 pcs.
H+)	Pogostemon deccanensis	(053F)	3 pcs.
J)	Hydrocotyle tripartita	(039B)	3 pcs.
K)		( )	4 pcs.
K)	Ranunculus inundatus	(022C TC)	4 pcs.
L)	Taxiphyllum sp. 'Flame Moss'	(003H TC)	5 pcs.
M)		( )	2 pcs.
N)	Eleocharis parvula	(132C)	20 pcs.
