

by Tropica

A vigorous, deep-green wall of Weeping moss accentuates the orange-red Myriophyllum and the two light-green plants, Nymphoides and Hydrocotyle. The last-mentioned plant droops in cascades towards the low, dense Eleocharis mini, which elegantly brings out the small lobated leaves of Hydrocotyles. The warm, orange-red colour from Myriophyllum is also found in the tips of the group of Rotala sp. bonsai.

**Tip!** Light-green and red/purple plants placed closely together will always accentuate each other.

**Note:** Plant A on the drawing is Myriophyllum tuberculatum which is no longer produced by Tropica.

## Technique

Aquarium:	IHM MÜLLER
Volume:	100 L
Light:	T5 Daylight 4 x 24W
Gravel:	Rådasand 1.2-2.0 mm
Filter:	Eheim pump 600 L/h
CO2:	25 mg/L
Fertiliser (weekly):	25 ml Premium Fertiliser + 50 ml Specialised
Maintenance (hours per week):	½-1

## Plants used in this layout

A)	( )	1 pcs.
B)	Nymphoides hydrophylla 'Taiwan' (041B)	1 pcs.
C)	Hydrocotyle tripartita (039B)	2 pcs.
D)	Rotala indica 'Bonsai' (033E TC)	2 pcs.
E)	( )	2 pcs.
E)	Ranunculus inundatus (022C TC)	1 pcs.
F)	Eleocharis pusilla 'Mini' (132B TC)	2 pcs.
G)	Vesicularia ferriei 'Weeping Moss' (003B POR)	8 pcs.
