

# Layout 43 (30 L)

by Tony Swinney

The cube's 30 x 30 cm is perfect for a simple hardscape with only one root placed in the middle of the aquarium. The root will look more natural over time because it will be covered with moss. The shape of the root is suitable for Anubias. *Cryptocoryne wendtii* "Tropica" and *Echinodorus* "Reni" contribute to the red shades of the root which emphasise the fresh green *Staurogyne* in the foreground.

TIP! The symbols Easy, Medium and Advanced indicate the plant selection we recommend for your specific aquarium.
