

Layout 48 (300 L)

by Dan Crawford

The aquarium that looks great from the beginning and is easy to maintain. Echinodorus bleheri and Ludwigia grow fast and ensure, just like the numerous AquaDecor products, that the aquarium quickly reaches a fine biological balance. The numerous, big leaves and the large, dark lava blocks give the aquarium weight, piece and harmony. Echinodorus quadricostatus creeps out between the lava blocks. Spiky-moss and Cryptocorynes are growing vigorously on minor lava stones, and very small lava stones, spread out in the front, complete the image.

Tip! Large, calm fish will enhance the image of this aquarium. E.g. a couple of beautiful Discus (Symphysodon discus) or Scalare (Pterophyllum scalare) combined with a little shoal of Corydoras.

Technique

Aquarium:	IHM MÜLLER
Volume:	300 L
Light:	T5 Daylight 4 x 54W
Substrate:	Tropica substrate
Gravel:	Grain size 0.8-1.2 mm, black/Fiji from Unipac
Filter:	Built-in filter back wall w/ 2 Eheim pumps 600 l/h
CO2:	25 mg/L
Fertiliser (weekly):	100 ml Premium Fertiliser + 150 ml Specialised
Maintenance (hours per week):	½-1

Plants used in this layout

A)	Ludwigia repens 'Rubin'	(033D)	2 pcs.
B)	Echinodorus grisebachii 'Bleherae'	(071)	6 pcs.
C)	Helanthium bolivianum 'Quadricostatus'	(068)	3 pcs.
D)	Echinodorus 'Reni'	(072D)	4 pcs.
E)	Taxiphyllum sp. 'Spiky Moss'	(003G POR)	4 pcs.
F)	Aegagropila linnaei	(000C ST)	4 pcs.
G)	Cryptocoryne beckettii 'Petchii'	(108A YLS)	8 pcs.
H)	Microsorium pteropus 'Narrow'	(008A YWS)	2 pcs.
I)	Microsorium pteropus 'Windeløv'	(008B YWS)	1 pcs.
J)	Microsorium pteropus	(008 YLS)	1 pcs.
K)	Microsorium pteropus	(008 YWS)	1 pcs.
L)	Anubias barteri var. caladiifolia	(101U)	2 pcs.
