

by Viktor Lantos, Antoni Dimitrov, Eduard Gercog

This fountain of mangrove wood is the home of *Limnophila Sessiliflora*, *Rotala 'green'* and *Eleocharis* species.

All are plants, which enhance the effect, but require regular trimming. At the base, moss, *Anubias* and *Microsorium*, create a passage to the beautiful green plain along with *Marsilea Hirsuta* and *Glossostigma Elatinoides*, which *Eleocharis 'Mini'* has created in only few months. The landscape is comfortable calm and quite easy to maintain.

## Technique

Aquarium:	JUWEL
Volume:	180 L
Light:	T5 Daylight 4 x 45W
Gravel:	Very light grey, grain size 0.8-1.2mm
Filter:	Internal filter
CO2:	25 mg/L
Fertiliser (weekly):	Premium Fertiliser 70 ml + Specialised 50 ml
Maintenance (hours per week):	½-1

## Plants used in this layout

1)	( )	2 pcs.
2)	<i>Limnophila sessiliflora</i> (047)	1 pcs.
3)	<i>Microsorium pteropus</i> 'Trident' (008G)	3 pcs.
4)	<i>Anubias barteri</i> 'Petite' (101H)	4 pcs.
5)	<i>Glossostigma elatinoides</i> (045A)	4 pcs.
6)	<i>Anubias barteri</i> var. <i>nana</i> (101)	2 pcs.
7)	<i>Eleocharis acicularis</i> 'Mini' (132B TC)	6 pcs.
8)	<i>Taxiphyllum barbieri</i> (003 YLS)	2 pcs.
